

Emerson Announces New Website Launch **for Europe**

AACHEN (GERMANY), July 9, 2018 – Emerson (NYSE: EMR) today announced the launch of newly revamped websites for numerous businesses within the Commercial and Residential Solutions' business in Europe. The newly designed websites offer quick and easy access to essential information and features that give a more comprehensive understanding of the company's products and services. The global brands included in the extensive website launch include Copeland, Alco Controls, Dixell, ProAct, Therm-O-Disc, Fusite, Vilter, White-Rodgers and InSinkErator.

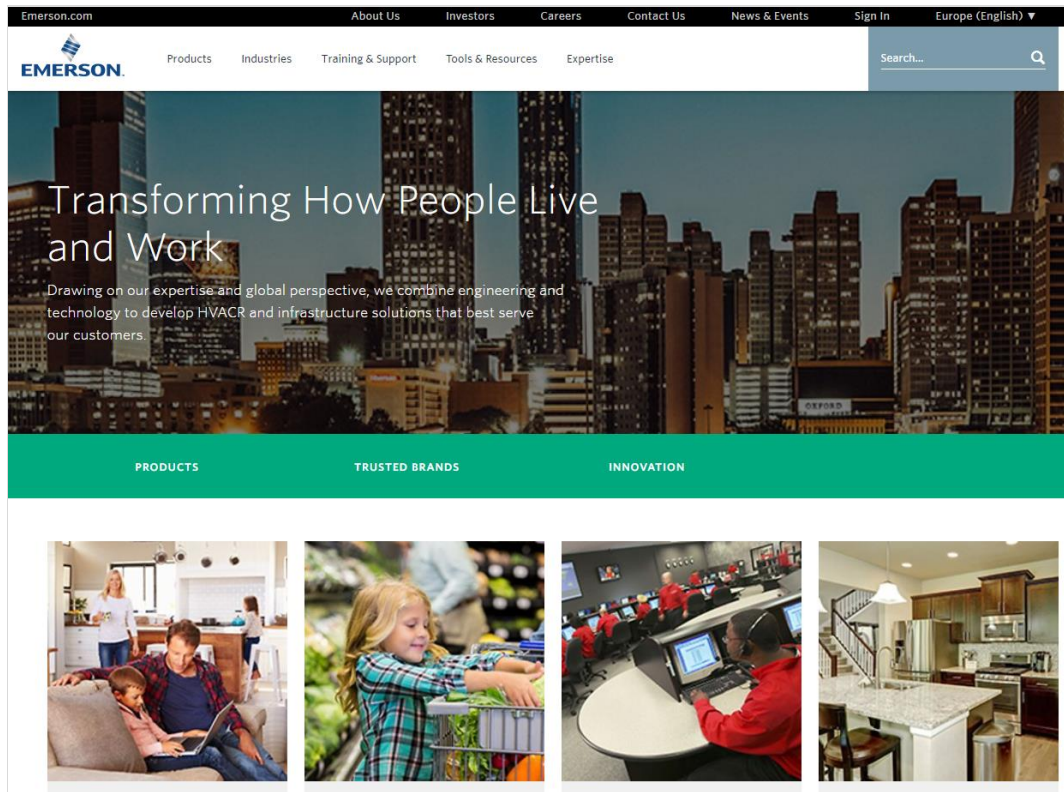

The new website has a clean uncluttered design, improved functionality and enhanced rich content focused on the organization's mission to provide industry-leading products, systems and services that meet the toughest standards for productivity, efficiency, and compliance. The new websites go live today, 9th July 2018, and are located at:

Climate.emerson.com/en-gb (and six additional locales for Europe)

Insinkerator.emerson.com/en-gb

"We are excited about our new website launch and the robust information it provides for customers, investors, partners and media to better understand our products and services," said Thomas Tomski, Vice President Marketing, Emerson Commercial and Residential Solutions Europe. "We believe that this new site is an enlightening and informative experience to visitors as we continue to grow and increase our market presence."

The new websites will be updated on a regular basis with news of product launches, business activity, brand milestones, events, and other information.

The New Climate.emerson Website
